

Unless the world tackles inequity today, in 2030:

167 million children will live in **extreme poverty**

69 million children under age 5 **will die** between 2016 and 2030

60 million children of primary school age will be **out of school**

Physical access and distance to school

Existing solutions:

UNICEF build or rebuild school

Possible solutions :

-Encouraging governments to build public schools in rural areas

-Fighting for free and compulsory school

-building or rebuilding roads leading to schools

-Creating a transport network

-Providing a social assistance

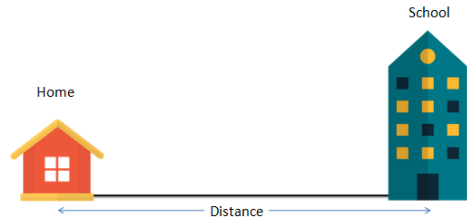

Problems:

-Lack of premises in rural areas

-Long distances on dangerous and unsafe roads

- Remoteness of school and lack of transport

-Poverty and lack of free school
